

SCHOOL BAND PROGRAM

We believe learning to play a musical instrument provides students with benefits far beyond the boundaries of the band program.

Our band programs provide an environment where your students will be engaged and motivated to achieve their aspirations in music and musical performance.

They will learn not only musical skills, but other important development skills in a kind, friendly and fun manner.

Outside of learning to play an instrument, other learning outcomes include;

- Teamwork and a sense of community
- Self-confidence and respect
- Respect for others
- Discipline, structure and work ethic
- A sense of accomplishment and achievement

We manage the entire program, including;

- Band leadership and development
- Instrumental tuition
- Recommendation and selection of music
- Instrument hire/rental
- Procurement and management of music, instruments and associated equipment
- Financial relationship with the students' parents
- Music selection
- Supply of non-portable instruments, accessories and music
- Band Camps and workshops
- Extension lessons

- We ensure all of our tutors and instructors have current Working with Children checks

What we will bring to the program...

- A structured environment for learning
- Musical and educational expertise
- Enthusiasm, credibility and exceptional leadership skills developed through a successful business career and more than 40 years of musical experience.
- A commitment to success and a work ethic which is second to none.
- Above all else; **a passion for music, learning and the community.**
